

Essentials of Medical Biochemistry

This is the thoroughly revised and updated edition of the comprehensive textbook for undergraduate medical students. Written specifically for the First MBBS students of Indian universities keeping in mind the time constraints of the preclinical phase. Avoids details not required by the undergraduate medical students yet provides comprehensive and up-to-date coverage of core topics of biochemistry as well as the emerging areas. Explains biochemical phenomena in an easy-to-understand language with chemical formulae structures and reactions as an aid to comprehension of the subject. Illustrated with simple and self-explanatory colour diagrams to facilitate easy learning Provides biochemical basis of aetiology pathogenesis symptomatology diagnosis and where relevant treatment of common inherited and acquired disorders Provides a balanced treatment of fundamentals of biochemistry and their application in the medical field.
