

## Omega Warrior

Earth is losing a war with an alien species they have fought for 25 years. The remnant of survivors live underground. Many have a disease that has no cure and leads to a painful death. Their only hope is to volunteer to become a Star Warrior, a cybernetic melding of human and machine, and bring the war to the aliens in space. It is into this hopeless situation that Sammy is born. He has a warriors heart and spirit. He also has the disease. Is this skinny, sick, fifteen-year-old the stuff that heroes are made? Doctor Taggart and his son have a plan and it seems so does God. Is Sammy Gods answer to this hopeless war? Will the plan be enough to win this war against seemingly impossible odds? Will it be too little, too late? With God, are all things really possible? Sammy thinks so.

Raelene has always had a very fertile imagination and has always believed there are things we cannot see or understand, but do still exist. Shes been writing short stories, music and poetry since she was ten. She wrote her first unpublished novel at the age of fifteen. The invention of the dedicated word processor led her to begin writing stories for her seven grandchildren in 1986. She now has Thirteen Great-Grand-Children to write for as well as a family and friends following.
