

## The trip to the big city

Join Timo the lion cub and his friends from the zoo on their trip to the big city and explore the various places and shops together with them. You can explain to them what people do in the various buildings and why they exist, because these visitors from the zoo have no idea what a railway station or a supermarket is. But you do, don't you? Note: the story in this book is presented in two different languages. As a result you have the opportunity to read the adventure to your children in German or in English. This enables children to experience their first contacts with simple words in another language and at the same time to break down language barriers.
