

Organising The Flow: One Piece Flow Templates, Forms and Documents

Implementing Lean Manufacturing processes and methods is an exciting and sometimes testing time. Creating documents, forms and templates can be a time consuming diversion. This guidebook is a collection of blank and sample documents used to help plan, record and measure the implementation of one piece flow within a manufacturing environment and provides a roadmap for the implementation. It gives the reader, real life working examples of calculations, forms, documents, layouts and charts required for a successful launch.
